Rosborough Partners Wins The GOLD!

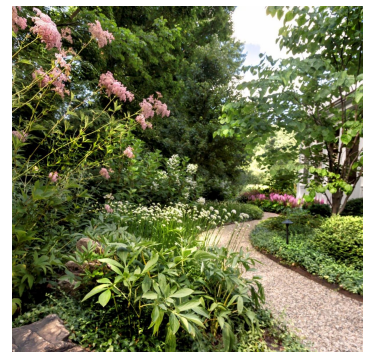

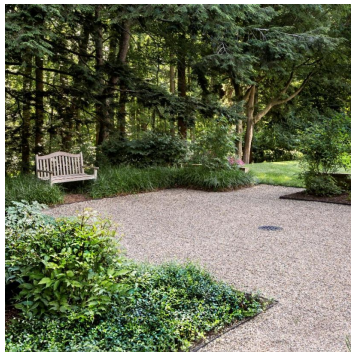

Gold Award For Residential Landscape Construction

Originally part of the Harold Swift Estate, The Rabbitry is a unique project with exciting challenges that our team approached with creativity and innovation. To honor the property's heritage, the resulting design incorporates elements from

its history like stone walls and fruit trees as a nod to the old orchard. Our team created livability with specific outdoor entertaining areas for the family to enjoy the amazing views throughout each season. The design highlights distinctive features like the natural prairie in front and wooded ravine in back, and integrates flawlessly with neighboring landscapes for a harmonious flow.

Our client is delighted with the results and we are thrilled to bring home the gold.
