Make The Most Of Summer

Oh, how we have waited for this warmth. Now it is up to us to take advantage of summer and find ways to make the most of our time outdoors. Whether you enjoy sports, swimming, or just relaxing under the sun and stars, we can create a customized backyard oasis that centers around your family's favorite outdoor activities that will enhance your summer days and evenings.

Plant Health Care Concern

Ascochyta Leaf Blight has begun appearing on lawns around the Chicago area. This turf disease appears as bleached, dead or straw-like irregular patches that resemble drought stress in the grass that comes on very quickly, sometimes even overnight. It is caused by weather that vacillates between hot, dry periods and cool, rainy conditions. While unsightly, be assured that Ascochyta Leaf Blight does not cause long-lasting damage. Proper watering will help treat and prevent this disease.

Our team has already begun checking irrigation systems and watching for signs of this blight, and we will inform you if there are any concerns.

Client Steward Team

In addition to regularly scheduled maintenance, our team will be focusing on the following service(s) this week:

Plant Health Care

This week we will be performing the following service(s), as weather allows:

Contact Information

Feel free to contact your Garden Steward directly with any questions or requests for service. Or contact our office 847/549-1361, Monday-Friday, 8:30am-5:00pm.
