## Rosborough Wins Industry **GOLD!**

It is the New Year, and 2023 is starting out with a bang! We are so excited to announce that RP has won the **GOLD AWARD** from the Illinois Landscape Contractor's Association (ILCA) for **Residential Landscape Construction!** The RP team worked with strategic partners to create this amazing Ultimate Lake Living environment for our client to enjoy every aspect of their waterfront location.

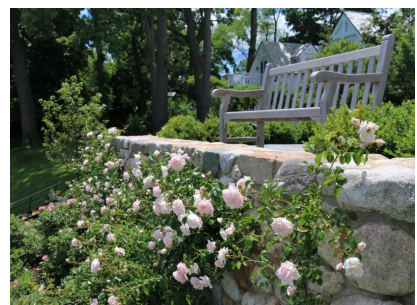

From the magnificent approach through to the lake side, the extensive landscape showcases the home's architecture and the stunning waterfront location. Outdoor living areas are defined by lush gardens filled with the client's favorite blooms, and comfortable furniture to sit and enjoy the stunning blue vista.

The use of common hardscape materials such as bluestone and granite cobbles visually ties the entire property together for a cohesive appearance. Access to the beach is via very large stone steps, with a coordinating outbuilding that stores their beach toys strategically placed midway down.

Intriguing elements were included in the design, like the espaliered apple tree beside a garage bay that coordinates with the home's European flair, and a charming water garden surrounded by the client's beloved roses ... a setting that allows life's stresses to melt away. A custom arbor and metal trellises were built and planted with a variety of perennial vines to provide shade from summer's sun.

RP's vision is to have property owners experience the transformative power of a well-designed, impeccably installed and thoughtfully maintained garden.

Our garden stewardship begins by cultivating relationships built on expertise, communication and trust that lasts through generations. It is a joy to have achieved that vision with this property, and an honor to be recognized for that effort by our industry.
