Give Your Gardens The Best Start This Spring

Rosborough Partners focuses on proactive landscape stewardship because healthy plants are essential for beautiful gardens. Proper spring clean up is a major process toward that goal. Removing organic debris left behind by winter is a critical step in keeping plants healthy because fallen leaves and branches harbor disease and fungal spores, which are detrimental to the health of your plants. However, since many types of bees and other pollinators hibernate in organic debris, it is important to wait until temperatures are warm enough for them to emerge, typically when temperatures are consistently above 50

degrees.

After the cold of winter subsides, giving way to the warmth of spring, our team will provide the following services to make sure your gardens are properly prepared for a gorgeous growing season:

- **Clean up broken branches**
- **Trim damaged limbs**
- **Remove spent perennials**
- **Pull weeds**
- **Edge garden beds**
- **Mulch gardens**
- **Seed bare turf areas**
- **Fertilize turf**
- **First mowing**
- **Un-healing roses and pruning**
- **Haul away organic debris**

Ensuring your gardens are healthy and beautiful protects your investment and offers your family immeasurable delight. If you would like a quote for spring clean up, please contact your Garden Steward directly, or call our office Monday-Friday, 8:30am-5:00pm.

Garden Steward Team

Our team will be focused on the following services this week:

Winter pruning

Preparing trucks & trailers for spring rollout

Plant Health Care

CLOSED UNTIL SPRING

Contact Information

Feel free to contact your Garden Steward directly with any questions or requests for service. Or contact our office 847/549-1361, Monday-Friday, 8:30am-5:00pm.

NOTE: We continue to respect physical distancing protocols for staff and client safety until further notice.
