Client Garden Photos

Nothing makes our staff happier than hearing how excited our clients are about their gardens ... except maybe seeing those gorgeous gardens. Periodically we receive emails or get tagged on social media by clients with photos from their yard showing off specific garden elements they are particularly thrilled with. Those photos get shared among staff to celebrate your excitement, and often times they are showcased on our social media. That bump of enthusiasm reinforces our passion for transforming your gardens.

The stunning photo of Purple Coneflowers above was sent to us by one of our amazing clients. If you would like see your favorite flowers, garden art, winged

visitors, or landscape element showcased on our social media, we would LOVE to hear from you. You can reply to this email and attach your special photos, and we will be delighted to highlight your garden. Or tag us on your social media garden posts (search for Rosborough Partners on any platform or use the links at the bottom of the page). (NOTE: all client information including name and location are kept confidential.)

Happy snapping!
