## Winter Landscape Services

•  
As the year draws to a close and December beckons, let's remember the essential winter landscape services that can transform your property into a haven of comfort, safety, and enduring beauty. Our dedicated team is poised to provide these services, ensuring that your home remains a source of pride throughout the winter months.

### **Dormant Pruning**

This meticulous process involves carefully removing dead, diseased, or damaged branches while your plants are in their dormant state. This process promotes

healthy growth, enhances the overall structure of your plants, and prepares them for a vibrant spring awakening.

### **Buckthorn Clearing**

This invasive shrub, if left unchecked, can wreak havoc on your landscape, outcompeting native species and diminishing biodiversity. Our team employs proven methods to remove buckthorn, ensuring that your landscape retains its splendor.

### **Holiday Lighting Installation and Removal**

We'll transform your home into a beacon of warmth and cheer, adorning it with twinkling lights that capture the essence of the holidays. And when the season draws to a close, we'll be there to gently remove the lights, leaving your home ready for a new chapter.

### **Snow Removal and Salting**

We'll keep your walkway and driveway clear and safe, ensuring that you can navigate your property with ease and confidence. Our salting services will further enhance safety by providing a secure passage for you and your loved ones.

Contact your Client Steward for information and pricing, or call our office Monday-Friday, 8:30am-5:00pm at 847-549-1361.
