## Benefits of Anti-Desiccant

As the chill of winter descends, safeguard your cherished plants from the destructive force of biting winds. Our expert staff can apply anti-desiccant spray to meticulously coat your broadleaf and needle evergreen foliage, forming a barrier against the dehydrating onslaught of frigid air. This invaluable treatment acts as a protective shield, preventing the rapid moisture loss that winter's harsh conditions accelerate.

There is still time to protect your landscape investment this winter with anti-desiccant. Our team is ready to apply this treatment to your trees and shrubs while we still have days above freezing. This ensures that the coating has time to

adhere properly and provide optimal protection. For more information, or to receive a quote tailored to your needs, please contact your Client Steward directly, or call our office 847-549-1361 Monday-Friday, 8:30am-5:00pm.

---

## Garden Steward Team

With regularly scheduled maintenance completed for the season, the Garden Steward team will be focused the following:

**Holiday lights installation**

**Winter decor installation**

## Plant Health Care

Our team will be providing the following service this week:
